

Endurance ALFALFA

- Exception wet soil disease resistance to Aphanomyces Race 1 and 2 with helps for better stand establishment, larger forage yields and better feed values.
- A dark green medium maturity alfalfa which has exceptional winter hardiness
- Endurance unique soil & disease package can be used in a haylage or dry hay program

AGRONOMIC TRAITS	
Maturity:	Medium
Fall Dormancy:	3.9
Winter Hardiness:	1.40
Cutting Per Year:	2 - 3
Forage Yield:	Very Good
Digestibility/Feed Value:	Excellent
Grazing:	Average
Well Drained Soils:	10/10
Modestly Wet Soils:	10/10
Disease Resistance Index:	35/35
Recovery After Harvest:	Excellent
Traffic Tolerance:	Very Good

High Resistant Race 2 Variety

Non-Resistant Race 2 Variety
